

# CAREER CHOICES MEDALS — ALL ARE WELCOME!

## RECOGNIZING SCHOOLS DEDICATED TO STUDENT SUCCESS

Career Choices Medal Schools are committed to increasing student engagement and improving college/career readiness.

Your implementation of the *Career Choices* series and My10yearPlan.com® could qualify you for consideration at the **BRONZE**, **SILVER**, or **GOLD** level. After you apply, a short interview with our team will determine your achievement level.

The pacing of the *Career Choices* content leads to all students creating a personalized 10-year Plan.

Students have their own *Workbook & Portfolio*, and the course culminates with creation of a 10-year Plan.

Campus administrators are supportive of the program and have empowered a Lead Teacher and SSE.

My10yearPlan.com® is used across the campus and students update their plans regularly.

The instructional team uses recommended guides and resources for planning and implementation.

The Lead Teacher meets with course instructors regularly for capacity building and planning.

Course instructors, the Lead Teacher, the SSE, and lead administrators participate in PD regularly.

The 10-year Plan is used across the campus for advising, academic coaching, and discipline.

Pre/post surveys are used, and data supports program assessment and improvement.

Community partners and stakeholders are aware of and engaged in supporting the program.

**All are welcome to apply! Get started at [careerchoices.com/medal](https://careerchoices.com/medal).**
